2018

PROJECTS:

MUSIC-PLAYER

Music player with animations and pause / play, forward / backward functionality. The project is made using HTML, CSS, JS and a bit animation.

FRUIT/VEGGIES GROCER

Grocery store selling exotic fruits/veggies, shakes, smoothies, juices made with HTML, CSS, and JS. Items can be added to cart and cart to value is calculated.

OLX CLONE

OLX clone made using HTML, CSS, JS, React and login/signup page using firebase. Items can add to sell and a chat box is also made in which buyer interacts with seller.

BANK MANAGEMENT SYSTEM:

This project is based on concepts of object-oriented programming and file handling in which admin can add, remove and update customer's account and their details. Programs like transactions, interest calculation etc. can be performed as well.

GRADE CALCULATOR:

This is basically a back-end project in which we calculate average marks of a student and segregate them into various grades whether the student is passed or not. The data is stored and processed in a JSON file .

CERTIFICATIONS:

Certificate of Excellence(Coding Ninjas)
in course "Introduction to Web Technologies"

Certificate of Excellence(Coding Ninjas)
in course "Advance Web Development"

Certificate of Excellence(Coding Ninjas)
in course "Object Oriented Programming"

Certificate of Participation(Adobe)
in course "Adobe UX Foundation Learning Journey"

Certificate of Cyber Security(Netacad)
in course "Cisco Netacad"

ACHIEVMENTS:

Participated in an OLX Clone project of front-end development.

SKILLS:

HTML

CSS
